

Optimize Enrollment, Increase Retention, Maintain Compliance And Boost Revenue - All In 90 Days

Regent Enterprise™ for Four-Year Institutions

The single most important decision you can make to give you a clear, competitive advantage.

As a Four-Year College, your days are filled balancing the need to drive revenue, optimize enrollment, attract new students, and enhance customer service in a very competitive market. Financial aid is the key to positioning your institution for success. That means an enterprise-strength, user-friendly solution that's simple to deploy and grows with you, enabling you to exceed your operational and financial expectations.

Regent Enterprise helps automate and optimize every aspect of the financial aid life cycle through recruiting, admissions, Title IV, and student service. Benefits include:

- Ensure compliance with state and federal agencies – remove the risk of costly processing errors or poor audits
- Enhance student data management across multiple campuses and years – guarantee proper funding and accurate reporting
- Increase enrollment – experience faster packaging giving you first mover advantage
- Improve student communication – put tools in your students' hands

With this cost-effective, easy to deploy software, you have the ability to ensure compliance, reduce staff training costs, and decrease institutional expenses; giving you a clear, measurable, positive ROI in the first year of implementation.

Like a GPS for your Financial Aid Activities

Regent's customizable Executive Dashboard shows you exactly where you are and puts you in control of your direction. The Executive Dashboard provides key real-time performance indicators, including data on processing, funds management, default management and customer service enabling you to make faster, smarter operational and strategic decisions.

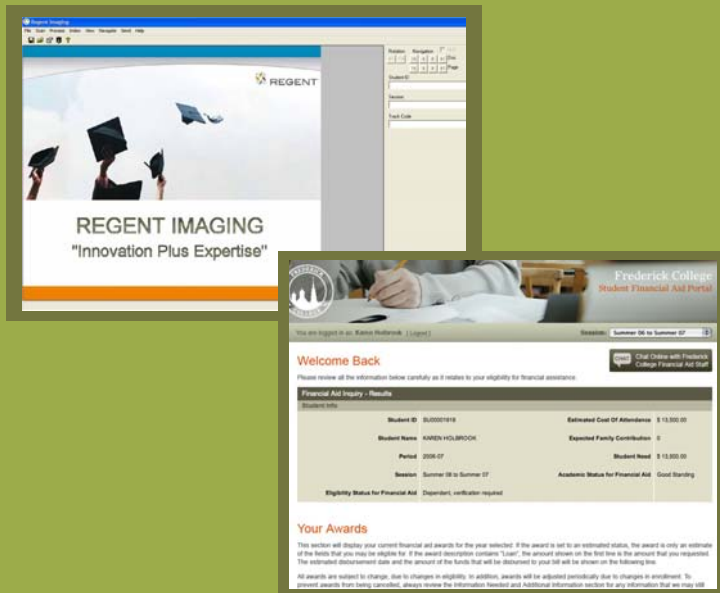

A Fully Configurable Workflow Menu

Regent Enterprise's fully configurable workflow menu roadmaps your financial aid process and preferences. This enables your institution to view processing steps in an intuitive interface. Regent Enterprise makes the financial aid office processes easier to execute, enabling more work, more efficiently, and with less chance of errors.

An Integrated Document Imaging and Indexing Tool

Regent Imaging provides institutions with the ability to scan, index and satisfy student document requirements in one easy step. Scanned documents automatically become part of a student's record. All imaged documents are also immediately available for viewing within student profiles.

One-Stop, Online Financial Aid Management for Students

Regent's Student Self Service Portal lets students communicate with the financial aid office, check application status, view and accept awards, and select a lender all while on the go, 24/7, from their laptop, PDA or cell phone, and in the language of their choice. Regent's Student Portal is the first of its kind to include early needs analysis and a digital FAFSA. Perspective students can now obtain an early financial aid estimate, allowing your institution to package an early award offer. In addition to the Student Portal's online authentication system, its e-forms and e-signatures ability enables faster completion and submission of forms by students.

What our clients have to say about Regent:

"The option to choose a managed services offering was a critical driver behind our selection of Regent Enterprise as the school's financial aid management system. Additionally, the Executive Dashboard will assist us in managing our loan counseling efforts, which is an added value that we offer to our students, and will provide a tool to assist in monitoring and evaluating our transaction metrics."

Lynne LaLone, Executive Director of Business Affairs, Human Resources and Facilities, Carnegie Mellon University's Tepper School of Business

"Regent has become the financial aid management solution of the future for our students. The new product is very easy to use and simplifies many processes. I highly recommend the Regent Financial Aid Management Solution to any college looking for a best-of-breed solution that is reliable, easy to use and can be fully implemented in just a few months."

Kris Shear, Director of Financial Aid, Santa Rosa Junior College

"The mission of the Heinz School financial aid office is to guide and assist students in securing the financial means to pursue higher education. With varying student needs and a diverse array of Heinz School academic programs throughout the world, Regent Enterprise is the tool that gives us the flexibility to face the complex challenges of delivering financial aid to our students in an ever-changing, global environment."

Betty Casale, Director of Financial Aid, Carnegie Mellon University's H. John Heinz III School of Public Policy and Management
